

# Using the CCDF Policies Database in Child Care Research

Annual Meeting of the Child Care  
Policy Research Consortium  
October 25, 2012

# Today's Discussion

- What kinds of research projects might use information from the CCDF Policies Database?
- Overview of the CCDF Policies Database
- Two projects currently using the Database
  - Microsimulation: Estimating CCDF eligibility
  - Statistical analysis: CCDF and child welfare
- Using the CCDF Policies Database for *your* research
  - Book of Tables
  - Full Database detail

# Kinds of Research that Might Use the CCDF Policies Database

Projects that need...

- Detailed information (beyond the information in the State Plans)
- Cross-time information
- Information across States and Territories

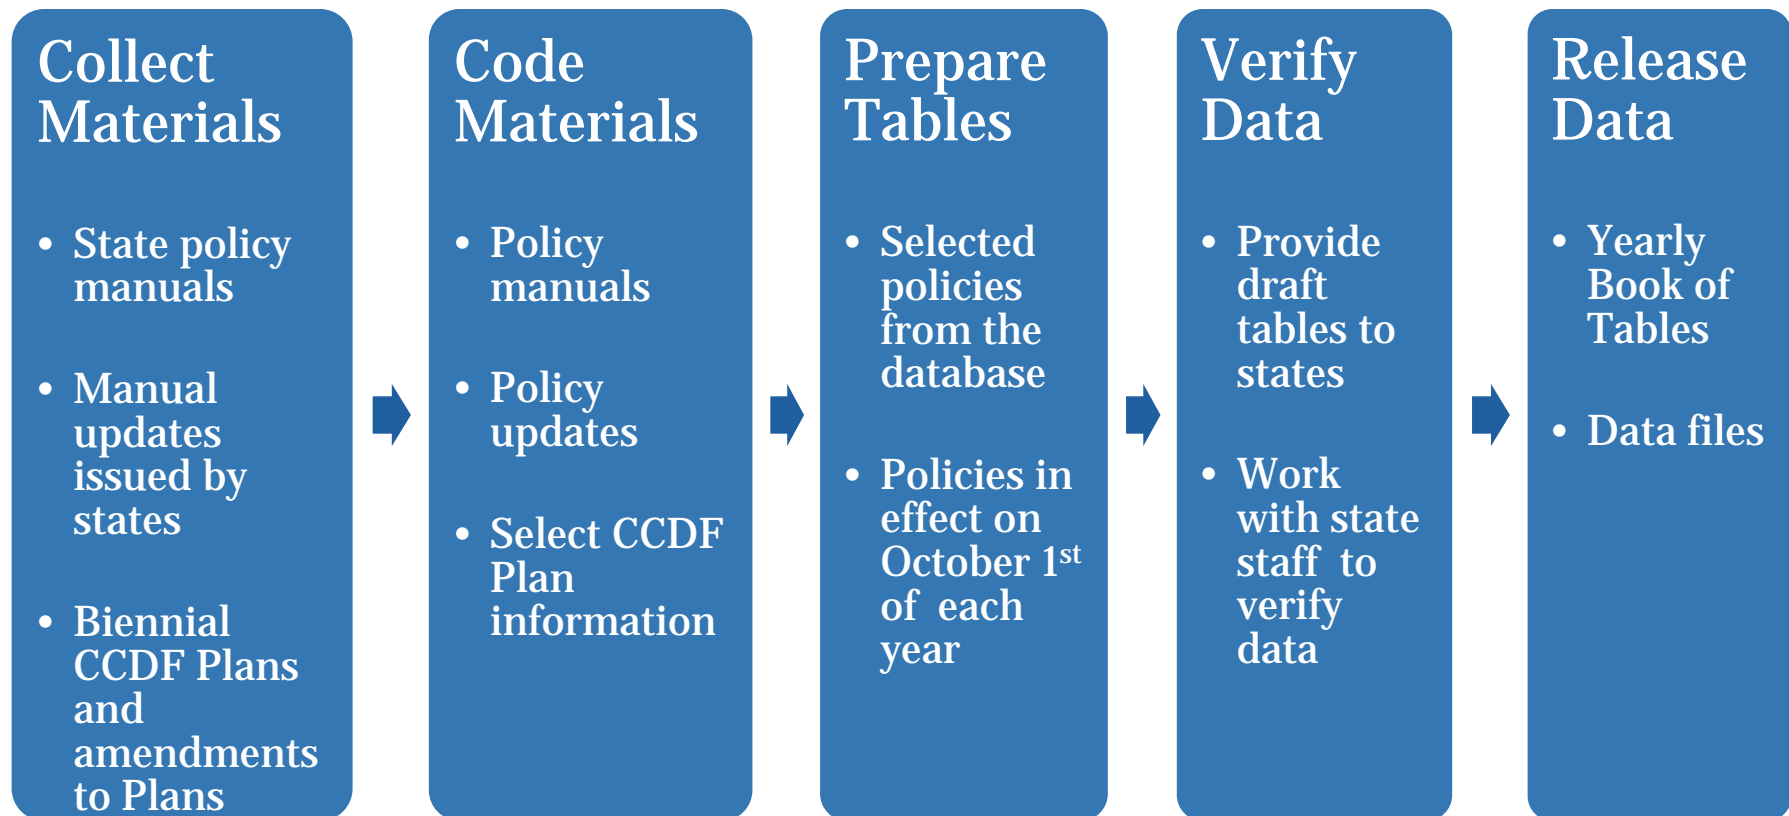

# Examples

- Do differences in CCDF policies across States affect which families receive subsidies?
  - Database data with 801 data
- What state policies affect labor force participation?
  - Database data with CPS, ACS, or SIPP data and other state-level explanatory variables
- What are the CCDF policies for TANF families in State X (for example, prior to a site visit)?
  - Database information alone

# The CCDF Policies Database Project

- Detailed information on CCDF policies
- Information on all 50 states, D.C., territories and outlying areas
- Captures changes across time
- Data collected mainly from states' policy manuals

# CCDF Policies Database Process

# Information in the Database

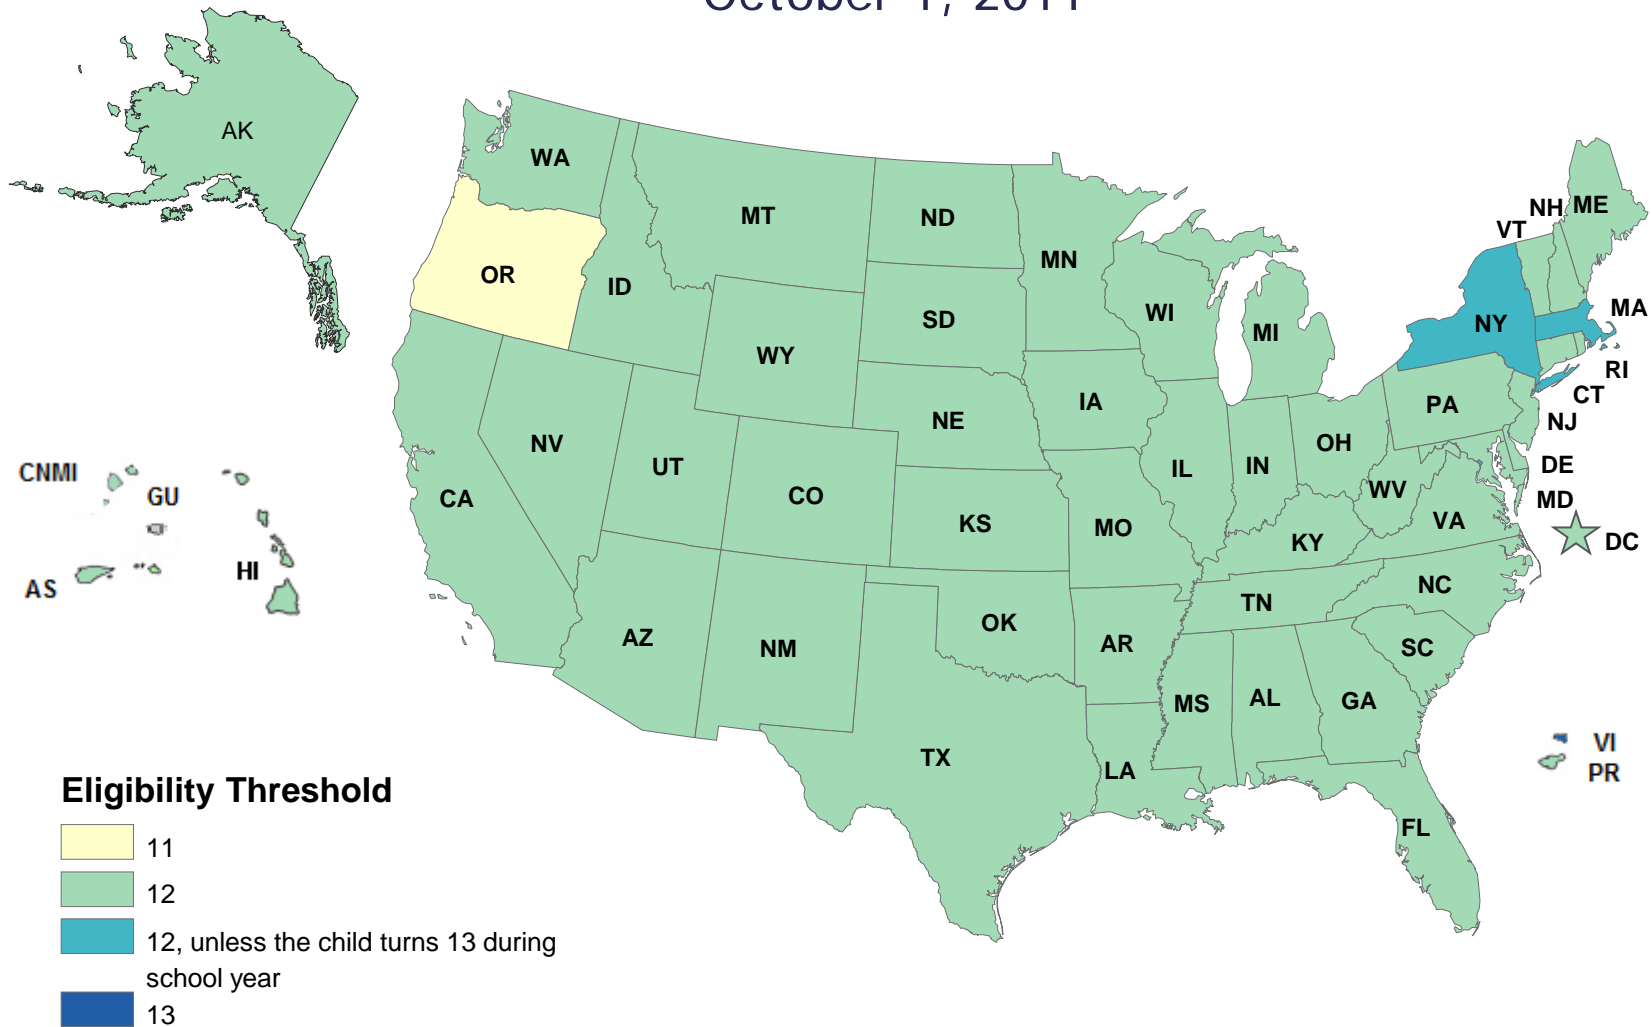

- Eligibility requirements
- Application and reporting information
- Priority and waiting list policies
- Copayments
- Reimbursement rates and provider policies

# Eligibility Policies

- Age limits for subsidized children
- Approved activities
- Defining the family unit
  - Treatment of older siblings, teen parents, step-parents, other adults
- Income disregards and deductions
- Income eligibility thresholds
  - By family size
  - Initial and continuing
- Assets tests

# Application and Reporting Policies

- Application procedures
- Information that must be verified with documentation
- Requirements for reporting changes
- If families receiving different types of benefits/services are exempt from redetermination
- Terms of authorization

# Verification Requirements

# Copayment Policies

- Copayment exemptions
- Copayment administration
- Basic calculation method
- Detailed “table” of income ranges and copayment amounts or percents, by family size
- Adjustments for multiple children
- Other adjustments

# If Families Are Exempt from Copayments

# Two Examples of Uses of the Database

- Microsimulation Analysis
  - How many children are eligible for CCDF?
  - An HHS/ASPE project, conducted at U.I. with the TRIM3 model
- Statistical Analysis
  - What are the ways in which CCDF policies treat children/families involved in child welfare?
  - A project conducted by researchers at Oregon State University, the Society for Research in Child Development, and Georgetown University

# Two Ways for YOU to Access the Database Information

**1. Book of Tables**

**2. Detailed Data Files**

# Book of Tables

- Selected policies from the CCDF Policies Database
- Policies in effect on October 1 of each year
- Second Book of Tables shows policies in effect on October 1, 2011
  - Includes complete set of October 1, 2010 tables

## Child Care and Development Fund (CCDF) Policies Database, 2008-2013

### Project Overview

The project will create a comprehensive, up-to-date database of child care subsidy policies for all 50 States, the District of Columbia, and U.S. Territories, and from the information in this database, to create books of tables and analytic files that will be accessible and useable by researchers and other analysts. The database will contain the policies and practices in effect by State/Territory and year, starting with Federal Fiscal Year (FFY) 2006 and ending with FFY 2013. Access to the analytic files will allow researchers and others to address important questions concerning the effects of alternative child care subsidy policies and practices on the children and families served, specifically parental employment and self-sufficiency, the availability and quality of care, and children's development.

## Child Care and Development Fund (CCDF) Policies Database, 2011

Author(s): [Giannarelli, Linda](#); [Minton, Sarah](#); [Durham, Christin](#)

Date Issued: Fall 2012

Description: The CCDF Policies Database project is a comprehensive, up-to-date database of inter-related sources of CCDF policy information that support the needs of a variety of audiences through (1) Analytic Data Files and (2) a Book of Tables. These are made available to researchers, administrators, and policymakers with the goal of addressing important questions concerning the effects of alternative child care subsidy policies and practices on the children and families served, specifically parental employment and self-sufficiency, the availability and quality of care, and children's development.

# Using the Book of Tables

- Is the information in the Book of Tables sufficient?
  - Point-in-time
  - No sub-state detail
  - Does not include all details
- You can obtain the Book of Tables columns in electronic format from Research Connections

# Using the Detailed Database

- When the Book of Tables isn't sufficient
- Things you need to do:
  - Decide what variables you need to look at
  - Understand how the variables are coded
  - Understand when the Database has more than one “record” of information for the same state
  - Download the data

# Identifying Variables

## 20. Priority Policies

### General Notes/Concepts:

If there are more children eligible for subsidies (meeting all eligibility requirements) than can be served, some children or families may be given priority over others.

### Subgroup Issues:

None

### Additional Coding Notes:

None

### Variables and Notes:

Variable	Variable Options and Notes
<i>Priority Policies</i>	
If any groups are given priority for the subsidy.  (PriorGroups)	<u>Variable Options</u> 0 - NA 1 - Yes 2 - No 91 - ? 92 - Not in manual  <u>Coding Notes</u> 1. If this variable is coded No, all other priority variables are coded NA, with the exception of definition variables.

# How Variables are Coded

Variable	Variable Options and Notes
<i>Families Whose Copayments are Waived</i>	
If families below 100 percent of the federal poverty level are categorically exempt from copayment requirements.  (CoplayPovertyExempt)	<u>Variable Options</u> 0 - NA 1 - Yes 2 - No 92 - Not in manual  <u>Coding Notes</u> 1. This policy must be explicitly stated. 2. This variable is only coded Yes if the state exempts all families below 100 percent of the federal poverty level. If the state exempts some other subset of families in poverty, this policy is described in the notes field.

# Understanding Multiple “Records”

- Example:  
Copayment Adjustments for Texas

State	County	Program	Family Group	Provider Type	Provider Subtype	BeginDat	EndDat	Begin Majority	End Majority
48	192	34	98	99	0	2007/05/16	2008/08/03	8888/88/88	8888/88/88
48	192	34	98	99	0	2008/08/04	2012/03/20	8888/88/88	8888/88/88
48	44	31	98	99	0	2008/09/08	9999/12/31	2008/09/08	9999/12/31

# When there are Multiple “Records”

- Something changed in that area of policy, or
- Different policies in different sub-state area
- Different policies for different types of providers or different groups of families
- Different policies for different CCDF-funded programs

# Downloading the Data

- Available formats:
  - Excel
  - SPSS
  - SAS
  - Stata
  - ASCII
  - delimited
- Same general procedures as downloading any other Research Connections data
